

ChargePoint Express 100

Make Your Business a Preferred Destination

With ChargePoint® Express 100, our newest generation of DC fast chargers, property owners can provide their visitors with a faster way to charge. Express charging can help attract new customers and offer your visitors a quick charge before they head on to their next destination.

Get More Range in Less Time

- + Charges at a maximum of 100 RPH (miles of Range Per Hour)
- + 24kW output

Connectors

- + SAE Combo connector
- + Compatible with current and upcoming DC capable EVs from Audi, BMW, Chrysler, Daimler, Ford, GM, Porsche, Volkswagen and others

Convenient Form Factor

- + Slim design with wall mount and stand options gives flexibility on installation locations
- + Convenient cable and connector storage
- + Designed to isolate critical electronic components from environmental influences, increasing reliability and performance

Minimize Costs

- + State-of-the-art power conversion electronics make this one of the smallest and lowest cost DC fast chargers available
- + Low shipping and installation costs due to smaller form factor

Protect Your Investment with World Class Service and Support

- + ChargePoint Assure, our proactive monitoring, reporting and extensive warranty is provided for one year with the option to purchase two additional years of coverage
- + Station Activation and Configuration Service for your initial setup
- + Phone support Monday to Friday from 5 AM to 6 PM PST

Get More Business and Stay in Control with Network Services

- + Largest community of EV drivers
- + Single platform for all user accounts, payment processes and driver experience across all your ChargePoint stations
- + Access control by driver or group of drivers
- + Remote configuration of pricing policies based on energy, time or combination of the two
- + Analytics and reports on gas savings, usage and more
- + Option to provide real-time station availability to drivers on the ChargePoint map and mobile app
- + 24/7 driver support
- + Comprehensive driver services including reports on power usage, miles of range added and state of charge notifications via the free ChargePoint mobile app

Energy Measurement and Management

- + Real-time energy measurement
- + 15 minute interval recording
- + Time of day pricing
- + Load shed by percentage of running average or to fixed power output
- + Instantaneous power, miles of range added and state of charge available via the ChargePoint mobile app
